

# PeopleKey Nexus

A time and attendance  
solution for anytime,  
anywhere and any device

The ever-present need for businesses to achieve efficiencies with the management of staff is made easier with a simplified, scalable solution that combines the best of time and attendance tracking and cloud technology.

Introducing PeopleKey Nexus, a leading cloud-based employee attendance solution enabling mobile clocking, biometric scanning, on-demand reporting and cloud data storage backed by the Microsoft Azure platform for enhanced security.

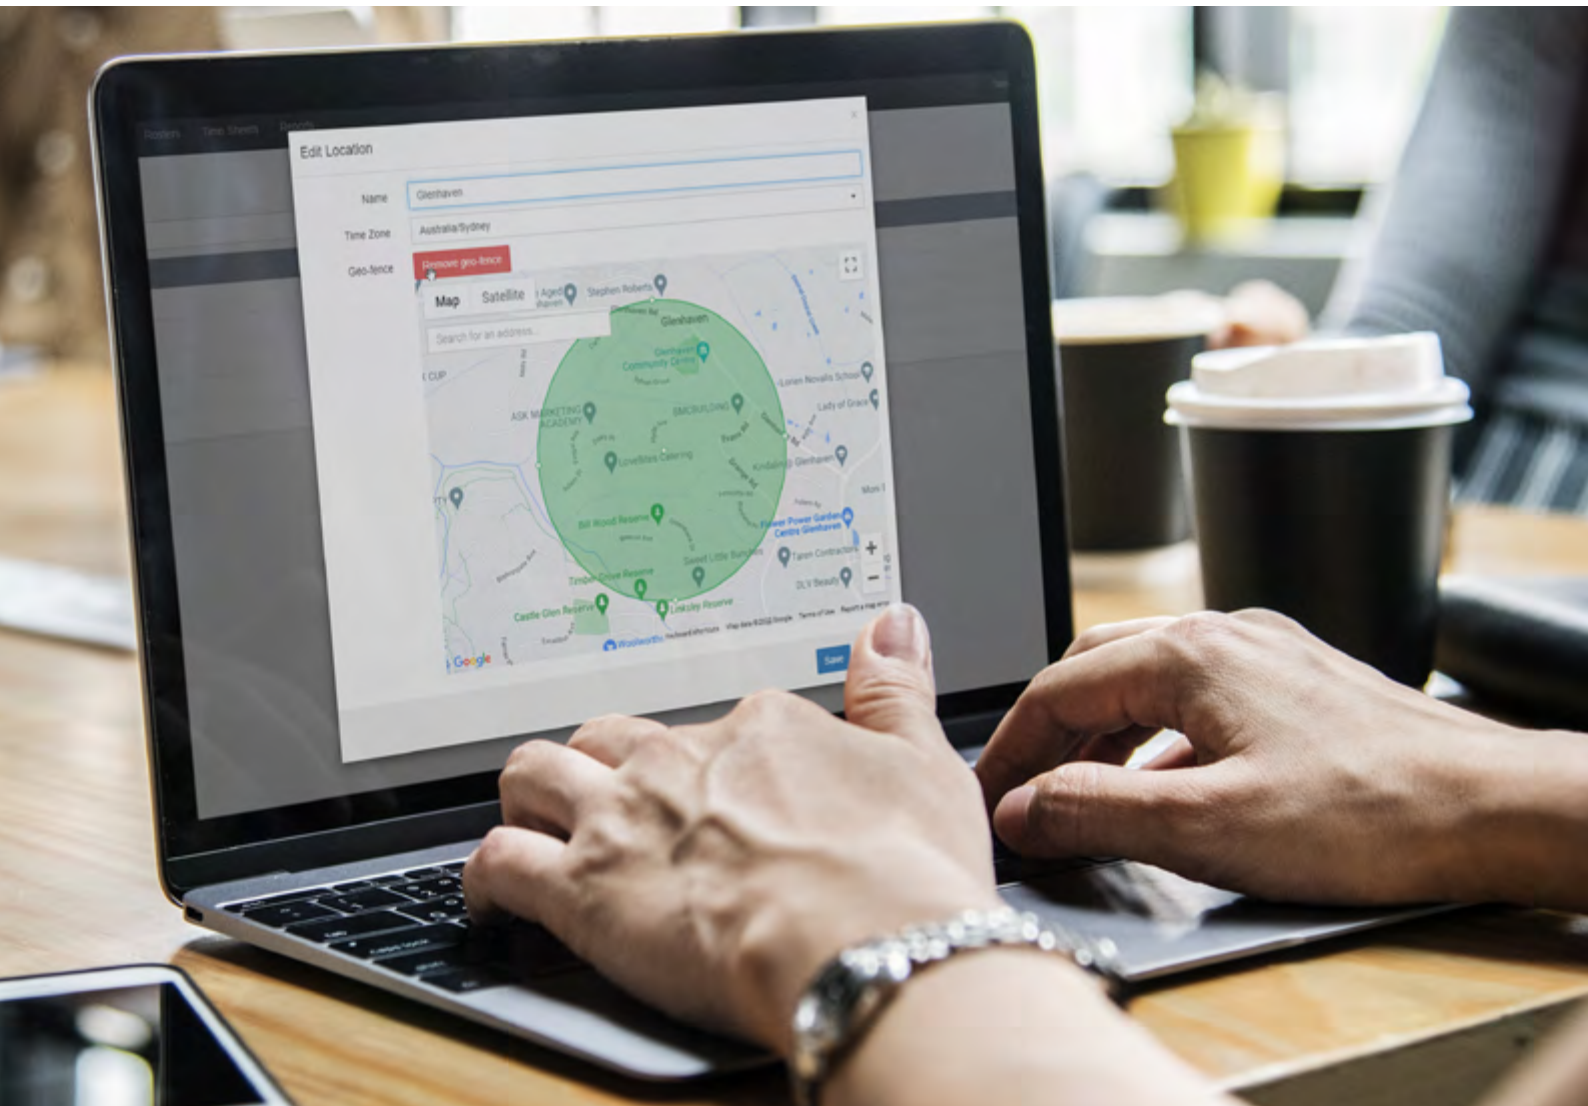

### Key Benefits

- Clock in wherever you're working from
- GPS location for increased accuracy
- Lower setup costs
- Enhanced access to data and reporting
- Flexibility for hybrid and mobile workforces
- Easily connect with payroll systems

"The PeopleKey team really understood what we needed and were able to recommend how to structure the system so that we could maximise our efficiencies"

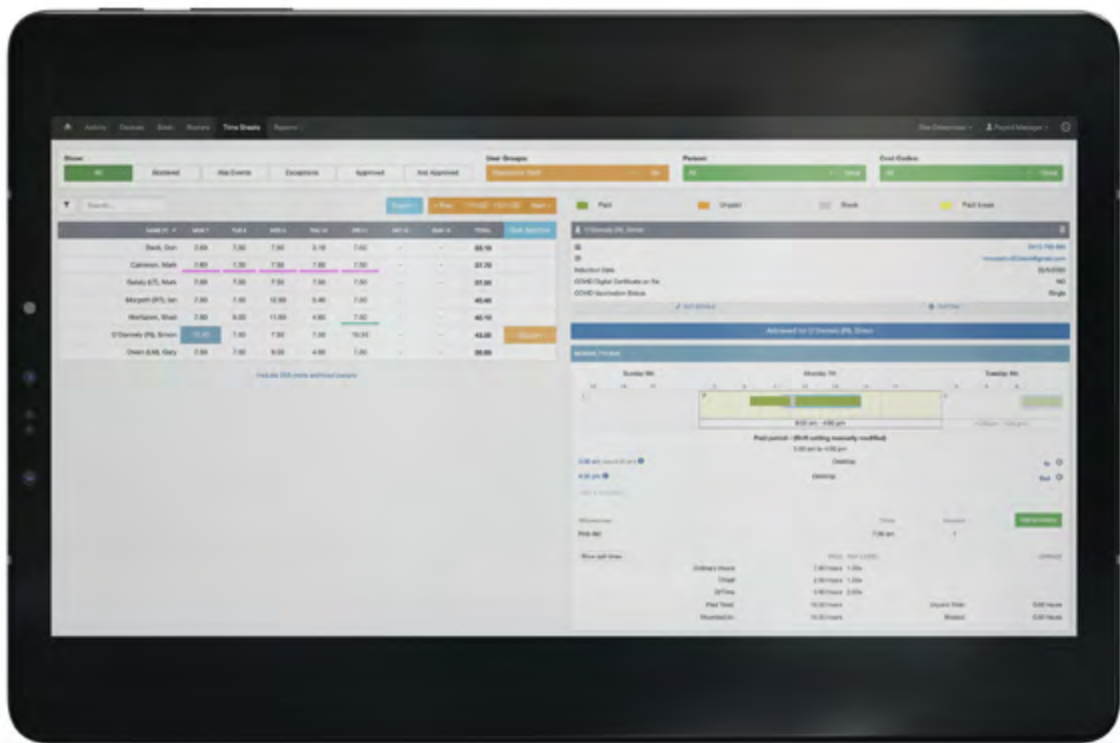

Alex Jack / Managing Director / Integrity Staffing

# Attendance where you want it

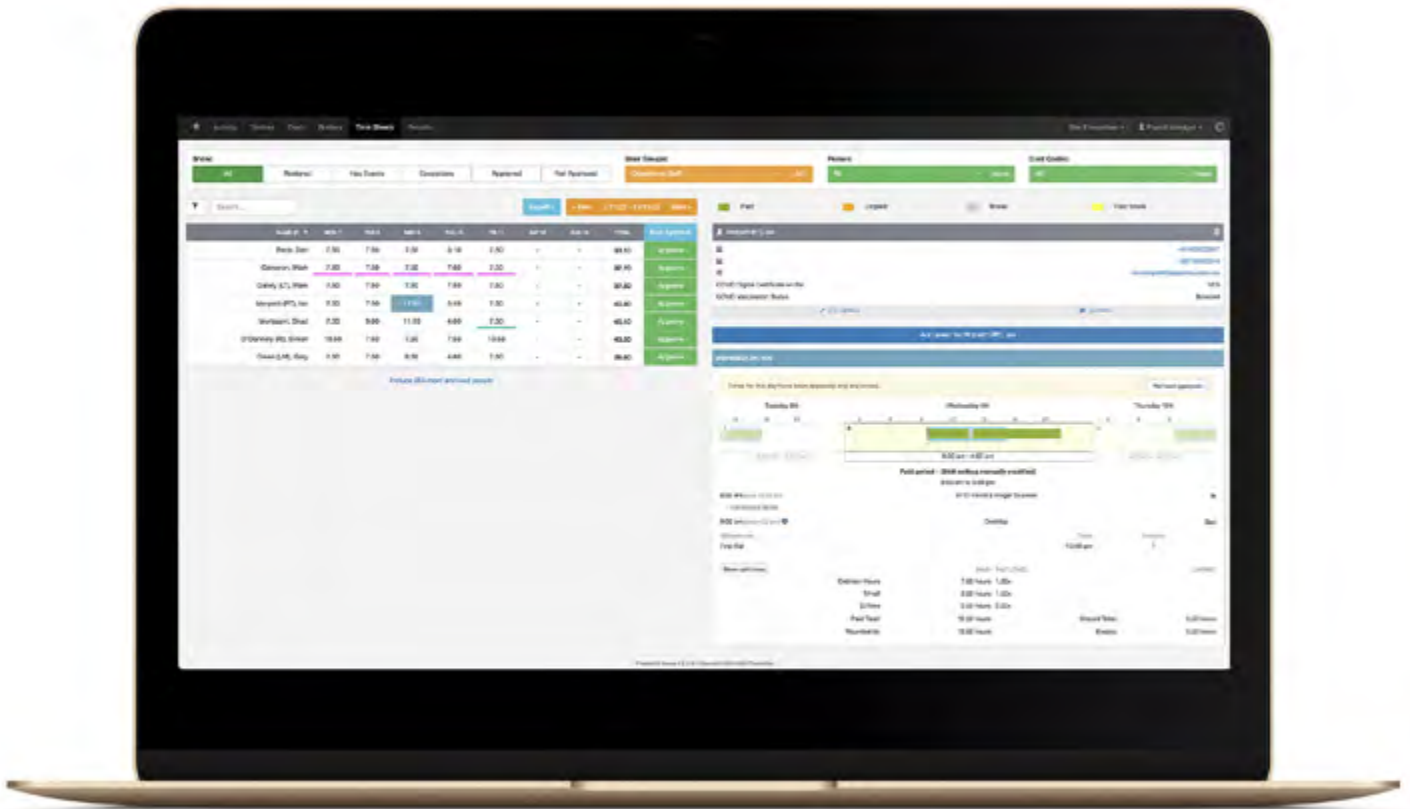

The importance of real-time attendance tracking can not be underestimated. From managing employee absenteeism to visibility on employee location, knowing where your employees are and when greatly assists with overall workforce management. Plus, in the unlikely event of a building or worksite emergency evacuation, knowing your data on the whereabouts of staff is secure and accessible in real-time via PeopleKey Nexus is an added safeguard and peace of mind.

# Timesheets

Featuring an easy-to-use interface, the PeopleKey Nexus timesheet module provides managers with comprehensive levels of functionality to effectively implement business rules around pay periods, grace periods, absent times, leave types, break times and much more.

# Approvals

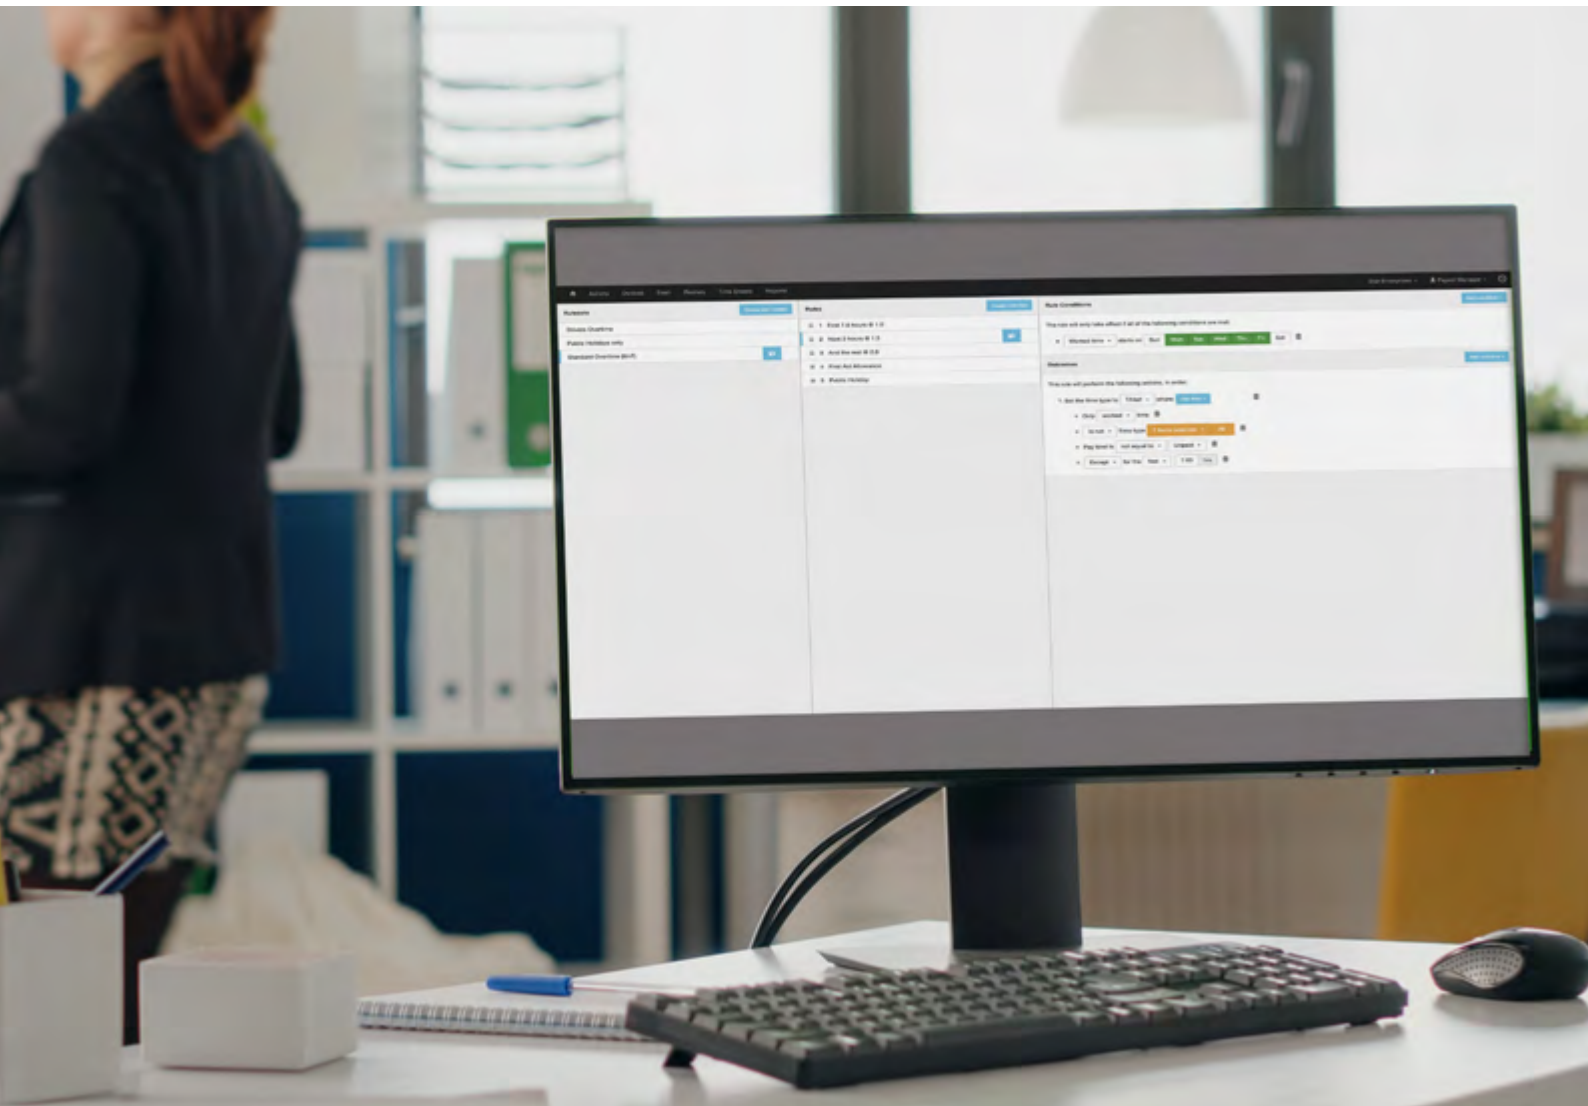

PeopleKey Nexus has a multi-tiered approval process, ensuring visibility and accountability at all levels of management. Timesheets for any given pay period are locked to the business once the highest level is reached to ensure data integrity.

# Scheduling and Rostering

PeopleKey Nexus is packed with features to manage scheduling and rostering processes including positional-based scheduling, template-based rostering, and for the power user, customisable shift presets. With its intuitive interface, The rostering module is both powerful and easy-to-use, while informing and automating the Timesheet module.

# Award Interpretation

Compliance with award and enterprise bargaining agreements is made simple with the PeopleKey Nexus. The calculation engine within the product simplifies configuration of business rules to manage overtime payments, allowance payments and split labour costings by departments.

Your organisation will benefit from the elimination of errors and increased efficiency with your payroll processing, including seamless integration with more than 20 payroll systems.

PeopleKey has supplied Australian and International customers with leading biometric device solutions since 1999.

Our Australian Made products and software solutions are developed and supported by experienced, professional, and local teams.
